Why is your organization affiliated with SAVE and what advantages does SAVE membership offer you?

- SAVE is the big umbrella for european activities and motivation for international networking
- Being a member in an european network
- Easy contact to active people in european countries
- Would be nice to have more organizations in the network

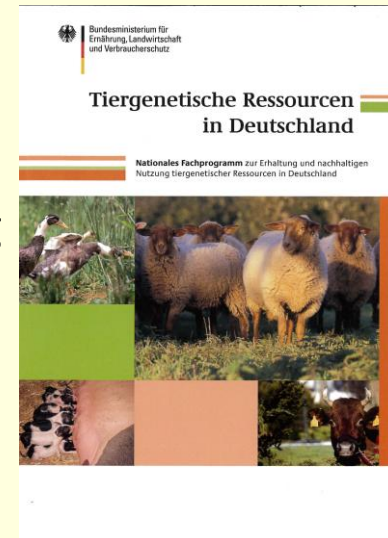

Breedlevel

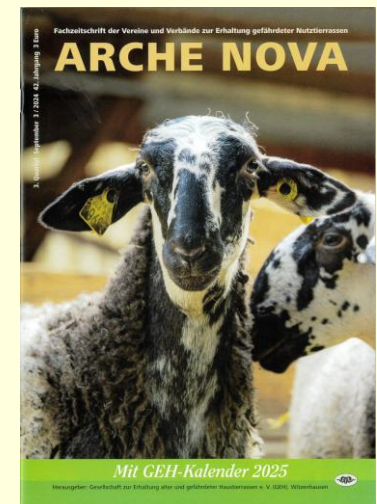

Conferences

Excursions

EU-Regulations

Articles

What expectations do you have of the SAVE Foundation in the future?

- Change of information
- Pool of knowledge on european level
- Statements on european topics which are useful for national discussions (carnivores, diseases....
....others)
- **Good feeling:** Background of international NGOs, who work on the same „**DREAM**“ on Animal genetic Resources being an important pool for agriculture, animal husbandry, climate change and future systems

What is your organization willing to contribute to help meet those expectations? What can you contribute yourself?

- Take part in workinggroup for special topics
- Offer information which could be useful on international level
- Engagement in the Ark-Farm Project on european level

Ark-Farm Project of GEH is 30 years old 1995 - 2025

Aims of the Ark-Project:

Herdbook-Breeding, Animal Welfare, Animal Health, Control of Diseases, Networking, Consulting, economical Aspects, Marketing, Ark-Schools

Big variety of breeds on 210 Farms

4 Categories of Farms: Ark-Farm, Ark-Village, Ark-Parcs, Ark-Regions

Pictures: Feldmann, Schafzuchtverband Bozen

Diverse Thanks for your Attention
